

Sh[i] Products Cleaning & Maintenance

Clean only with non-abrasive cleaners, like water with mild soap, followed by a warm water rinse and dry with a clean, soft cloth. If stain persists, use a mild all-purpose cleaner like Windex™ with a damp cloth, rinse and dry.

Be careful to not damage the surface or its finish sheen by bearing down too hard or over-cleaning.

For very resistant stains

Mix a paste with baking soda and water and clean with a soft brush using a circular motion.

About 10 to 20 cycles will be sufficient to remove most stains.

Rinse with warm water and dry with a clean, soft cloth.
